DOCUMENT RESUME

ED 289 319 EC 201 280

AUTHOR	Villarruel, F.; And Others
TITLE	Alternative and Augmentative Communication Bibliography. Revised.
INSTITUTION	Wisconsin Univ., Madison. Trace Center.
PUB DATE	7 Jul 86
NOTE	41p.; A product of the Trace Research and Development Center on Communication, Control, and Computer Access for Handicapped Individuals. For related documents, see EC 201 271-279.
AVAILABLE FROM	Trace Center, University of Wisconsin-Madison, Waisman Center, 1500 Highland Ave., Madison, WI 53705-2280 ($5.30).
PUB TYPE	Reference Materials - Bibliographies (131)
EDRS PRICE	MF01/PC02 Plus Postage.
DESCRIPTORS	*Communication Aids (for Disabled); *Communication Disorders; Computers; *Disabilities; Sign Language; Symbolic Language
IDENTIFIERS	Augmentative Communication Systems

ABSTRACT

This bibliography covers alternative and augmentative communication and includes English-language citations for books, journal articles, and conference proceedings. The list contains over 400 citations, organized in alphabetical order by author, with references to publications dated from 1973 to 1986. Each bibliographic entry is coded for the handicapping condition studied, subject characteristics, subject age, symbol systems (such as Blissymbols or American Sign Language), output modes (such as microcomputer or printed), and the focus of the paper (such as assessment, communication board design, software development). (JDD)

ALTERNATIVE AND AUGMENTATIVE COMMUNICATION
BIBLIOGRAPHY CLASSIFICATION CODES

I. POPULATION CODES:

a. Specific retrieval of a particular clinical popluation
b. Primarily artilces addressing intervention programs and/or the effects of training programs.
c. Must include qualifying codes (e.g., symbol sytem, mental age focus) with the population code or retrieval will include <u>everything</u> on that population entered in the ACSU bibliography.

AMBULATORY.....code AM
APHASIA.....code AP
AUTISM.....code AU
APRAXIA.....code AX
BLIND.....code BD
CEREBRAL PALSY.....code CP
DEAF.....code DF
DEAF/BLIND.....code DB
DOWN SYNDROME.....code DS
DYSARTHRIA.....code DY
HEAD TRAUMA/CLOSED HEAD INJURY.....code HT
INTENSIVE CARE UNIT.....code IC

note: this category is intended to be used for references which describe the use of alternative and augmentative communication systems with temporarily hospitalized patients who require an alternative system (e.g., burn victims, post-operative patients, etc.).

MULTIPLY HANDICAPPED.....code MH
MILD/MODERATE MENTAL RETARDATION.....code MM
NON-HUMAN PRIMATES.....code NP
PROGRESSIVE DISORDERS.....code PD

note: this category in to be used for disorders such as the following; Amyotrophic Lateral Sclerosis, Muscular Dystrophy, Multiple Sclerosis).

SEVERE/PROFOUND MENTAL RETARDATION.....code SM

II. SUBJECT CHARATERISTICS AND AGE

a. Subject ages will be divided into two sections, MA and CA. Although it is not necessary, it is suggested that both the CA and MA be reported whenever possible.
b. More than 1 CA or MA may be reported for each entry.
c. Chronological age groups are based on PL 94-142

1. Chronological age.

PRESCHOOL.....code C1 (0-7 yrs CA)
ELEMENTARY.....code C2 (7-12 yrs CA)
ADOLESCENT.....code C3 (13-21 yrs CA)
ADULT.....code C4 (22-65 yrs CA)
GERIATRIC.....code C5 (65 > yrs CA)

2. Mental age

[SENSORIMOTOR].....code M0 (0-24 mos MA)
[PREOPERATIONAL].....code M1 (2-5 yrs MA)
[OPERATIONAL].....code M2 (5-12 yrs MA)
[FORMAL OPERATIONS].....code M3 (12-21 yrs MA)
[ ].....code M4 (21 > yrs MA)

III. SYMBOL SYTEMS and OUTPUT MODES

a. This is a strict categorization field, i.e., includes only those artilces in which the symbol system is precisely defined.
b. Non-specific sign sytems classifications, such as "total communication" or "signin" are included under SG
c. Output mode codes will be used for aided systems only

ABSTRACT SYMBOL SYSTEMS.....code AB
AMERICAN SIGN LANGUAGE.....code ASL
BLISSYMBOLS.....code BL
ELECTRONIC DEVICE.....code ED
EYE GAZE SYSTEMS.....code EY
GESTURE.....code GE
Gesture will foucs upon idosyncratic gestures and AMER-IN
MICROCOMPUTER (e.g., Epson, TRS, Apple IBM).....code CM
MORSE CODE.....code MC
PICTOGRAPHIC IDEOGRAPHIC COMMUNICATION SYSTEM.....code PC
PICTURE COMMUNICATIN SYSTEM (PCS).....code PCS
PHOTOGRAPHS or PICTURES.....code PH
PICSYMBOLS OR MAGIC-CYMBOLS.....code PI
PRINTED OUTPUT.....code PO
PEDAGOGICAL SYSTEMS.....code SG
a. examples of pedagogical sign systems to be included within this category include Finger-spelling, SEE1, SEE2, Signed English, etc.

REBUS.....code RB
SPEECH.....code SP
TRADITIONAL ORTHOGRAPHY.....code TO
SCANNING SYSTMES.....code SS
VOICE OUTPUT SYSTEMS.....code VO
VISUAL NONRETRIEVABLE.....code VN

note: this code is not intended to be used with sign systems, but rather with automated and nonautomated devices.

IV. FOCUS OF PAPER

ASSESSMENT.....code AT
ALTERNATIVE INPUT SYSTEM.....code AI
COMMUNICATION BOARD DESIGN.....code CD
DEMOGAPHICS.....code DE
FEATURE COMPARISON.....code FC

feature comparison will be used for papers concerned with the issues of iconicity, transpareny translucency, and electronic interfacing devices

TRAINING/INTERVENTION.....code IN
ISSUE PAPER.....code IP
LONGITUDINAL ACQUISITION.....code LA
INTERACTION.....code PR
POSITON PAPER.....code PS
POSITION/SEATING.....code SIT
SOFTWARE DEVELOPMENT/EVALUATION.....code SD
TOY MODIFICATIONS,
CONTINGENCIES or TRAINING.....code TT
